Software for your mind speeds up personal change

"How does NLP work? Just like computer software. Software programs are sets of instructions for a computer to do certain things at certain times in a certain order. That's exactly what NLP teaches you to do for your own mind/body machine."

~Time Magazine

Level ONE

Results from Level ONE Grads !

“I’ve found that all of your classes have delivered a lot of value in my life. The NLP Level ONE course is a marvelous introduction to NLP. The information on developing rapport with people, customizing language based on how people think, and achieving peak performance states with anchoring has transformed my life.”
 ~T.M., National Recruiting Firm CEO

“When I first took your Level ONE class, my life was in complete turmoil. My marriage was ending, my business dwindling and my daughter physically ill from so much negativity surrounding her. After taking the Level ONE, phenomenal changes started occurring - instantly- in my life!! To my delight, after taking the Advanced Practitioner these changes continued with speed and efficacy. After viewing my beauty parlor business in a mundane way, I now perceive it as a ‘playground’ for my creativity and a place where I can use all my NLP skills. As a result of encouragement and support, my daughter now expresses herself openly and freely, providing her with good health. Words cannot express nor instruments measure the benefits I have derived from Level ONE and NLP.”
 ~S.C., Business Owner

“These days I am blessed with good health, a great partner (A dentist with his own practice, who also plays in several different bands, with a great family!), a homeowner, some interesting new hobbies (poi and fire spinning - a little something I picked up and love of in Hawaii), and I am in the best physical and mental health of my life. I look and feel younger than ever! I am currently taking classes at the University of Houston studying to be a wine sommelier. I still contribute this personal success and growth to you personally, and the NLP Center in Dallas was like the parent I never had.”
 ~S.P., Wine Sommelier-in -training!

The following is a letter from Matthew Diaz following the Meta Model, weekend #2, of the Practitioner training, just before brain surgery. He picks up meta modeling quick, eh?

[It's intimidating having to write to NLP people. "How specifically is it intimidating?" you may ask. Well, they may analyze everything I say. "Would it truly be *everything*?" Well, probably not everything, but...I'm just self-conscious about what I'm saying. "What would it look like if you were *not* self-conscious?" Well. I...oh just shut the %^&% up and let me write my letter.]

Dr. Cheryl and the rest of the gang -

The surgeon's office called and asked that I come in early for pre-op. My wife is taking off work early to drive me to the hospital and to run some errands we need to do before surgery tomorrow. I was wondering how critical it was that I come in to work. I could be there from 12-1 if you need me to.

Personally my expected outcome is to be in the hospital for 1 week so I can attend the next practitioner meeting and get back to work!

Let me know about whether I should come in.

Thanks!

Matthew

Hawaiian Huna (ancient spiritual teachings)

“When I got back from the Huna trip, 200 books that I co-authored with Wayne Dyer and Tony Robbins were delivered, I found a stack of checks that had been lost in a pile of paperwork, and I met my soulmate! I would say the trip had a profound impact!!”

~ Neil O Pflum

Author, Speaker, Success Coach

The Huna trip is an opportunity to step out of the classroom and into an experiential adventure of transformation, healing and magic in the beauty of Hawaii. Groups typically explore several sacred sites or Heiaus. These are the temples of old Hawaii and are vortexes, or power places, with very specific energies. In these power places, birthing new things (attitudes, behaviors, money, relationships), letting things go (old patterns, ways of thinking, beliefs) and any other transformational/healing are exponentially magnified in speed and ease. There are also ancient teachings of powerful techniques for healing, change and manifestation as well as many activities to raise your consciousness and metaphysical abilities. The next trip is on the Big Island, “the Island of instant Manifestation”, March 8-15, 2008. Whether you've been on numerous trips or this is the first time you've been curious about going, the Huna trip offers new teachings and wisdom, something different and unique, every time. The trips are now led by Magick, aka Greg Bernstein (Master NLP teacher/trainer at this Center for 10 years) and his Shaman partner, Mystery. Trips are now limited to 12 participants and can sell out fast so we suggest enrolling now. For more information check out the website www.sacredvoyages.com, call Greg directly at 214-577-7725 or call the NLP office.

Gossip & Rumors or What's Coming Up & What's Passing Away

Congrats Tony Neal! He's up and painting again.

Congrats Dr. Cheryl! Dr. Cheryl in the last four months has dropped 50+ pounds and that propelled her to studying a new system of chiropractic called Matrix Energetics. Oh My Word! The responses she's getting from her patients!!! Call now and schedule your appointment with the *brand new* Dr. Cheryl Oden!

Congrats Tom Nelson! Here's some of the amazing things you can do with your mind! He broke 2 pine boards with a karate chop, snapped a wooden arrow shaft with his throat, and if THAT wasn't enough! He bent a steel reinforcing bar using his throat and walked on fire - which made his feet get cold. All in one day!

Congrats Beth Sabre! At the last Magic class, Tom Nelson wore this really cool hat. Jan wanted one. Beth manifested it seven days later! (Tom & Jan are co-training the Magic Class. See p. 7)

Congrats Magick (Greg Bernstein) & Mystery! For the fabulous job they continue to do guiding the people on the Hawaii journey. Remember, next trip's in March 2008!

Thank you to Mark Youngblood for the fabulous job he's been doing in teaching the QCS and keeping lines open for healing requests. If you have healing requests, feel free to email them to the office. We'll forward them on.

Announcing!

There's a new person in the office replacing Helene replacing Faith (they got married and had babies; it *was* their outcome) and now Matthew Diaz is handling our computer work and keeping us otherwise organized. Be kind to him, he's just beginning his Practitioner program. YEA! We love you, Matthew.

Jim and Peggy Walker: Three small ponies in their house wasn't enough! OOPS! I mean, Leonbergers. (These are VERY BIG dogs.) We would like to welcome Quinn. He's also attending the APCT program learning to be a therapy dog. He'll be joining his other dog-mates, Elsa Beth and Gus, as a therapy dog at Baylor. The other dog, Jake, chose not to work. We love him anyway.

Ed Kaiwi is on youtube.com! See four short videos of him teaching. Go to youtube.com and type in "Ed Kaiwi" for an enlightening experience!

“NLP: The new hi-tech psychology that can make you better at everything you do”

- **Cutting U.S. Army training times in half.**
- **Improving the performance of major sports stars - such as members of the L.A. Lakers basketball team.**
- **Curing lifelong fears in minutes.**
- **Totally challenging the idea that improving skills and performance and removing emotional conflicts requires years of hard work.**

No wonder NLP is being

referred to as “magic in action.” It is the new technology of achievement that’s being used by people who are at the top of the heap and want to stay there. *It has been demonstrated on national television to cure allergic reactions and remove lifelong fears in just minutes.*

NLP shows you how to cancel old, inefficient sets of instructions that were programmed into you and how to issue new instructions - how to write new, more effective operating software for yourself.
