Level ONE: Anchoring

A widely viewed topic "The Secret" speaks about the power of our thoughts. Our negative thoughts are as creative as our positive thoughts, but how do you stop thinking negatively?? Our thoughts can be elusive. Where do come from? Why do I keep having the same thought over and over? Re-occurring thoughts are not so very different from the bubbles in a glass of carbonated water. From where does the bubble form? The bubble seems to form at some small imperfection on the side of the glass, and then it rises to the surface and is released. Our thoughts can be just like the bubble in the glass. They come from the deep structure of the mind and rise to the surface of our awareness. Ever notice a re-occurring thought. There it is again! There it is again! The NLP technique of Anchoring works at the deep structure where thoughts form to eliminate or alter the memory pattern in such a way that our negative thoughts can be eliminated. This brings to us more of what we think about, our positive thoughts.

A Proven Success: NLP Level ONE

A student sent her Dad a rather substantial check and HE LOST IT!! “Gone forever,” he said.—And it was an out of the country check. She could not replace it. In a private appointment with Jan, she was reminded how easy things can be.

Hi Jan,

I forgot to tell you my Dad found the check!! And, things easy, I contacted a few banks in the US and easy, easy. Now I ask myself, “How can I make Funny how sometimes I have a resistance to easy, help with lasso-ing in the check.

thinking about what you had said about making found one that can convert the check for me. Easy, this easy?”, “What would be an easy solution?” even if I KNOW it works. So, thank you for the

Did you know that General Motors, IBM, Century 21 Real Estate, AT&T, EDS, VMX, A.B.Dick, Southwestern Bell and Mobil Oil are just some of the companies that have sponsored Neuro-Linguistic Programming (NLP) training? Can you or your company afford to be left behind? Come take the next NLP Level One class for yourself to see what so many already know is an extremely useful set of tools.

Technologies utilized in this program have been developed and tested over the last thirty five years. The Science in Neuro-Linguistic Programming has been described in Science Digest as “the most important synthesis of knowledge about human communication to emerge in the last quarter century.” In sales specifically and in business in general, success is of

ten determined by one’s ability to communicate effectively.

The aim of NLP is to make successful thinking and communication a conscious choice, rather than an unconscious accident. The seminar consists of lecture, demonstrations, exercises and material to facilitate the development of NLP skills in your everyday life experiences. It is easy and powerful and you will notice the results immediately.

Here the learning is about how we can use our behavior and our language to influence ourselves, as well as others, and about the personal change and improvement that comes from having these skills.

Dear Jan,

Wanted to put in writing the profound impact that learning the application of NLP has had on my life.

Just the change effect of anchoring alone, has, as I’ll chronicle now, created improvement, not just for me, but for friends of mine also. My improvement from the anchoring allowed me, in ten minutes, to deal with, and overcome a “problem” that I had been struggling with for most of my life. We’re talking over fifty years here.

A friend of mine in Florida complained to me that his golf game had been steadily deteriorating for almost 2 years, and had him frustrated and feeling powerless to fix it.

After 10 minutes of walking him thru a self anchoring exercise, and guiding him thru the power of modeling a good golfer, he placed third in a golf tournament that very weekend.

Another friend had a very bad car accident 2 weeks before. She was so frightened that she actually had to force herself to do the simple task of pulling out of a driveway on a deserted street. You see, she had been broadsided doing exactly that.

When I saw that I insisted we do an anchoring exercise to relieve her of the fear.

Ten minutes later she was driving like she used to, singing and carefree, taking her normal precautions, but not frightened any longer.

And I’ve just begun to learn most of the NLP techniques. I’m excited to think of how much better my life will be once I’ve learned and mastered the other lessons that NLP has to teach.

Thank you for your wisdom so far. I keep attending the Level ONE sessions, because there’s always something new for me.

I’m also taking the Practitioner Course (APCT). This information is proving that we’re never too old to learn. I’m looking forward to my life getting better and better as I learn more of NLP.

I love thinking of doing all kinds of productive things as I “Grow up”. ~A.K., President, Growth Coach for Exceptional Entrepreneurs

Dear Jan & Staff at NLP Learning Systems,

Looking back over my calendar for the upcoming **Diamonds in Your Mind** weekend, I noticed a positive trend that has progressed since the last Diamond weekend in Sept ‘07. I would like to take this time to say thank you to Dr Cheryl & Jan for the wonderful and organized weekend that helped create several outcomes since that time. Oh, I can remember that weekend well. I was having a challenge with my front yard irrigation system, and my water supply to the house was turned off for three days. It was perfect timing that the central topic on Day 1 was regarding water and renewing the spirit. I took the techniques and meditations from the weekend to work on all aspects of my life. And though I went in focused with one particular outcome for the weekend, many other fabulous things have happened as a result. Since Sept, I have created: a seven day paid trip to Hawaii (the Big Island), \$4500 check within three weeks (out of nowhere), my miniature schnauzer passed her animal therapy certification in October (she’s also a master practitioner), a paid trip to Orlando over New Years, career change opportunities, credit card bills paid in full, family member is moving closer to home (after eight years), and dropped over twenty pounds.

Once again, thank you for your on going strategies, skills & empowerment that you help install in me and many other people. I am looking forward to participating in this weekend, and to creating many more possibilities.

I do have a warning for any future students who are considering taking this class, CAUTION—

12 HOUR BELIEF CHANGE WORKSHOP

“So it took years and years of learning and behavior to have these beliefs installed...beliefs about money, relationships, health, happiness, success, etc. and you’re telling me it only takes 12 hours to change them?”... asks the student.

“No, it actually only takes anywhere from 15 minutes to an hour to change them. It takes time to find them”... laughs the NLP Trainer.

Advanced Submodalities & Metaphor Magic

Take this opportunity to learn the best ...with the best! **with V. Jan Marszalek**
Assisted by Doug Matzke, Ph.D.
(Doug is presently running the APCT Study Group Movie Night)

For those of you missing weekends in the MPCT, it’s back! Beginning with **Advanced Submodalities** and **Metaphor Magic**.

☛**Resourceful Experience:** Changing submodalities can dramatically alter how a person reacts to, or responds to their past, present, and future.

☛**Positive Viewpoints:** Diminish limitations and unresourceful states while intensifying resource states. Generate new points of view that empower people, and give them new insights and higher states of consciousness.

☛**Subtracting Elements:** Limit experience or increase focus by deleting distinctions.

☛**Useful Disruption:** Rapid changes to eliminate blocks and get to more resourceful states.

☛**Compelling Future:** Build a compelling future that will act as a powerful attractor.

Metaphor Magic

Metaphors provide vicarious learning experiences and/or new perspective toward solutions and understanding. An effective metaphor will arouse curiosity, stimulate imagination, be attuned to (client) anxieties and aspirations, give full recognition to the problem, develop options toward solutions, convey overt and covert meanings, speak simultaneously to many levels of human personality, and communicate in a manner that reaches the unconscious. Of all the wonderful skills available, metaphors are frequently the most graceful and simplest to incorporate.

Now aren’t you curious about metaphors?

This is the First of 5 weekend trainings. Stop by the office for a full brochure.

APCT AUTUMN

“Dear Tony, I would like you to know how NLP has helped me to accomplish many things in my life: things I did not think were really possible in such a short time. For this I am very grateful for and thank Tony, Jan and NLP staff. When I registered for the APCT in April 2006, I wrote on the registration form what I intended to get out of the class...the love of my life, have new furniture and pay off all my debts. At the third session, I wrote a note to staff explaining that I had not received any of my intentions yet and fully expected to get them. By the fourth session of the class I had found the love of my life. Six months later we were married. Suddenly I had new furniture! He refused to have debt so he paid all mine off. This was truly miraculous.

We are very happy and are building a fun and happy life together. We plan to continue our education at NLP to kickstart all of our business and personal goals.” J.H., Raw Foods

“Jan, Apparently my NLP is working faster than I had thought about, just got a new position that leapfrogs me dramatically closer to my intended 5 year target. No, I had not been on the market, they came to me.” P.C.,
